

Sergio Rey

Senior Software Engineer | Angular Architect | Full Stack Developer | AI-Assisted Engineering

Barcelona, Spain | sergiorey@outlook.com | +34 664510582

Professional Summary

Senior Software Engineer with strong expertise in designing scalable enterprise applications, specializing in Angular architecture, Full Stack development and AI-assisted software engineering. Experienced building reusable component libraries, standalone Angular applications, Spring Boot services, enterprise integrations and cloud-based automation. Passionate about clean architecture, SOLID principles, performance optimization and technical leadership.

Key Achievements

- Designed reusable Angular component libraries for enterprise applications.
- Developed standalone Angular 21 applications using Signals, RxJS and modern Angular features.
- Integrated AI into software development workflows to improve productivity and software quality.
- Experience in enterprise integrations using Workato, Azure Integration Services and Kafka.
- Published Android applications on Google Play.

Core Technologies

Frontend: Angular 12–21, TypeScript, Signals, Standalone Components, RxJS, PrimeNG, Angular Material, Tailwind CSS, Sass

Backend: Java, Spring Boot, Node.js, Python, FastAPI, REST APIs, OpenAPI

Cloud & DevOps: Azure DevOps, Docker, Git, CI/CD, OpenTelemetry, Workato, Azure Integration Services, Apache Kafka, Datadog

Testing: Vitest, Playwright

Databases: PostgreSQL, MySQL, MariaDB

Engineering: SOLID, Clean Architecture, Design Patterns, Performance Optimization

AI: Prompt Engineering, AI-assisted Development, Code Generation, Refactoring, Test Automation

Professional Experience

Angular 21 Analyst Developer | Aubay Spain

Oct 2024 - Current

Developing a reusable corporate Angular library and two standalone Angular 21 applications. Architecture decisions, OpenAPI integrations, Vitest testing, Azure DevOps, Python/FastAPI and AI-assisted development.

Angular & Spring Boot Full Stack Developer | Carver Advanced Systems

Oct 2023 - Mar 2024

Enterprise application development with Angular and Spring Boot.

iPaaS Integrations & Automations Developer | Adevinta

Jul 2022 - Oct 2023

Enterprise integrations and automation using Workato, Azure Integration Services, SAP S/4HANA, Kafka, PostgreSQL and Datadog.

Full Stack Developer | MCR Solutions

Oct 2019 - May 2022

Business process automation, Angular development, Oracle Cloud integrations and analytics.

Full Stack .NET Developer | MPM Software Solutions

Apr 2019 - Jul 2019

Insurance software development with C#, NHibernate and MySQL.

Frontend Developer | BBVA IT

May 2018 - Apr 2019

Migration of enterprise web applications using JSP, JavaScript and Jenkins.

Web Developer | Spira Dreams

Oct 2017 - Apr 2018

Corporate websites and landing pages with PHP, WordPress and AWS.

Personal Projects

Portadas Periódicos – Android application published on Google Play.

Portadas Revistas – Android application published on Google Play.

Education

- Apps Factory – Mobile and Web Apps Development (Aspasia, Barcelona) — 2024
- Advanced Programming in Java – OCP Java SE 11 Developer (PUE, Barcelona) — 2024
- CFGS Web Applications Development (DAW) – INS Escola del Treball — 2017–2018
- CFGS Multiplatform Applications Development (DAM) – Institut Ausiàs March — 2015–2017
- High School Diploma – Humanities – Monona Grove High School (USA) — 2015
